

## Category Codes

### PROPRIETARY SUBSTANCES

1	Smoke Flavoring Agents	3G	Rendering agents
2A	Branding inks	3H	Release agents
2B	Tattoo inks	4A	Denaturants for meat requiring tankage
2C	Marking crayon	4B	Denaturants for meat not intended for humans
3A	Poultry scald agents	4C	Denaturants for poultry requiring tankage
3B	Hog scald agents	4D	Denaturants for poultry not for humans
3C	Tripe Denuding, Bleaching, and Neutralizing	5A	Foam control in soups, stews, rendered fats
3D	Substances for washing fruits and vegetables	5B	Substances for clean/feet other edible parts
3E	Preflushing agents for casings	5C	Miscellaneous
3F	Refining agents for rendered fats		

### NONFOOD COMPOUNDS

A1	General Cleaners	G10	Boiler treatment - nonfood contact (non meat and poultry areas)
A2	Soak tank, steam/mechanical cleaners	GX	Ingredients for use in Water Treatment Products
A3	Acid cleaners	H1	Lubricants – General incidental contact
A4	Floor and wall cleaners	H2	Lubricants – General no contact
A5	Freezer floor and wall cleaners	H3	Soluble oils
A6	Scouring cleaners	HX-1	Ingredients for use in H1 lubricants (incidental contact)
A7	Metal cleaners and polishes – nonfood contact	HX-2	Ingredients for use in H2 lubricants (nonfood contact)
A8	Degreasers/carbon removers	HX-3	Ingredients for use in H3 lubricants (soluble oils)
AX	Ingredients for use in Cleaning Products	HT1	Heat transfer
B1	Laundry products – food contact	HT2	Heat transfer fluids – no food contact r fluids – incidental food contact
B2	Laundry products – nonfood contact	HTX-1	Ingredients for use in HT1 heat transfer fluids (incidental contact)
BX	Ingredients for use in Laundry Products	HTX-2	Ingredients for use in HT2 heat transfer fluids (no food contact)
C1	General (Nonprocessing Area Products)	J1	Absorbents/Anti-slip agents – General
C2	Toilet/dressing room	JX	Ingredients for use in Absorbents/Anti-slip agents
C3	Paint removers – Nonprocessing Areas	K1	Solvent cleaners – Nonprocessing area products
CX	Ingredients for use in Nonprocess Area Products	K2	Solvent cleaners – Electronic instrument cleaners
D1	Antimicrobial agents always requiring a rinse	K3	Solvent cleaners – Adhesives/glue removers
D2	Antimicrobial agents not requiring rinse	KX	Ingredients for use in Solvent Cleaners
DX	Ingredients for use in Antimicrobial Products	L1	Sewer and Drain Cleaners - General
E1	Handwashing products	L2	Sewer and Drain Cleaners - Enzymatic
E2	Handwashing and sanitizing products	LX	Ingredients for use in Sewer and Drain Cleaners
E3	Hand sanitizing products	M1	Mold release Agents
E4	Hand lotions/cleaners – nonfood contact	N1	Drying Agents
EX	Ingredients for use in Hand Care Products	P1	Miscellaneous
F1	Nonresidual pesticides	PX	Ingredients for use in miscellaneous Products
F2	Residual pesticides	Q1	Shell Egg Cleaners – General
F3	Rodenticides	Q2	Shell Egg Cleaners – Destainers
F4	Fumigants	Q3	Shell Egg Cleaners – Quaternary Ammonium Sanitizers
F5	Fumigants requiring potable water rinse	Q4	Shell Egg Cleaners – Chlorine Sanitizers
FX	Ingredients for use in Pesticides	Q5	Shell Egg Cleaners – Foam Control
G1	Water Treatment Products – General	Q6	Shell Egg Cleaners – Iodine sanitizers
G2	Water Treatment Products – Phosphate	QX	Ingredients for use in Shell Egg Products
G3	Water Treatment Products – Silicate	R1	Coatings for use on direct food contact surfaces
G4	Water Treatment Products – Chlorine	R2	Coatings for use on structural surfaces
G5	Cooling and retort water products (all areas)	RX-1	Ingredients for use in R1 coatings
G6	Boiler, steam line products – food contacts (all areas)	RX-2	Ingredients for use in R2 coatings
G7	Boiler, steam line products – nonfood contact (all areas)		
G8	Cooling and retort water treatment (non meat and poultry areas)		
G9	Boiler treatment - food contact (non meat and poultry areas)
