

# AGRICULTURE SERVICES PRODUCE AUDITS

Regardless of the size of your farm, NSF Agriculture can help get your produce to market. By offering a comprehensive list of produce audits that cover the entire produce supply chain, we meet the requirements of retailers and buyers worldwide.

## FOOD SAFETY CERTIFICATION – MARKET ACCESS AND BRAND PROTECTION

<b>CanadaGAP</b>	GFSI and non-GFSI benchmarked certification options for individuals and producer groups. Covers only growing, packing, wholesale, repacking distribution and brokerage of fresh fruits and vegetables.
<b>GlobalG.A.P. IFA, HPSS and PSS, Chain of Custody and TNv11</b>	GFSI benchmarked produce certification for individual producers and producer groups. Covers growing and product handling. Also approved for the NUTURE v1.1 add-on
<b>PrimusGFS</b>	Modular audit approach, GFSI recognized certification scheme. Covers raw agricultural commodities, growing, harvest, packing, storage, and processing.
<b>SQF</b>	GFSI benchmarked certification program that covers all food categories. Individual and group certification options from the farm gate through to distribution.

## AUDITS – ENHANCE BUYER CONFIDENCE

<b>U.S. Harmonized GAP Standard</b>	Developed by United Fresh. Pre- and post-harvest audits for all fresh fruits and vegetables.
<b>NSF Proprietary Audit</b>	Our own Food Safety Audit for production, harvest and packing of whole, fresh produce.
<b>FSMA Readiness Assessment</b>	NSF International offers a full suite of readiness assessments to help producers, packers and processors determine their compliance with the FSMA Produce, Preventive Controls for Human Food, Foreign Supplier Verification Program and Animal Feed Rules.

## BUNDLED ADD-ONS – DIFFERENTIATE YOUR PRODUCTS FROM YOUR COMPETITORS

<b>Costco Addendum</b>	Can be added on to CanadaGAP or GlobalG.A.P. audits to meet customer requirements.
<b>Non-GMO Project</b>	North America's only third-party verification for non-GMO food and products.
<b>Organic Certification</b>	QAI organic certification and QAI transitional organic programs for all food categories.
