

# The 5 Steps of Handwashing

**1**

Wet your hands.

This illustration shows two hands held together under a stream of water. Small blue droplets are scattered around the hands, indicating they are being wetted.

**2**

Apply soap.

This illustration shows two hands being rubbed together with blue soap suds. The suds are depicted as small, light blue circles.

**3**

00:00:20

Scrub your hands for 20 seconds.

This illustration shows two hands being scrubbed together with blue soap suds. A yellow timer icon with the text "00:00:20" is positioned in the bottom left corner of the illustration area.

**4**

Rinse well.

This illustration shows two hands held together under a stream of water, with blue soap suds being washed away. The suds are shown as blue circles being carried away by the water.

**5**

Dry your hands.

This illustration shows two hands held together, palms facing each other, with fingers slightly spread, representing the final step of drying the hands.
