

IN A HIGHLY COMPETITIVE MARKET YOU NEED TO GIVE YOUR BUSINESS THE EDGE

IMPROVE GMP AND BUSINESS PERFORMANCE
WITH NSF'S EDGE TOOLKIT

Our toolkit allows for **E**valuation, **D**iagnosis, **G**uidance and checks for **E**ffectiveness.

When you want a clear picture of how your pharma business is performing across multiple sites and departments, NSF's **EDGE** toolkit can bring every detail of your quality systems into sharp focus.

NSF EDGE analysis examines your people and processes in detail, identifies areas of improvement in your quality procedures and gives guidance for overcoming shortcomings that may risk your next regulatory inspection or limit your company's effectiveness.

Whether the answer lies in simplifying complex procedures, setting new standards or introducing new expertise or processes, NSF EDGE places a team of leading industry experts into your business to ensure your quality procedures go beyond compliance and upgrade business performance for the long term.

In times of change knowing how to change can be difficult. Let NSF support your company to be the best it can be.

Your company too can have the **EDGE** – NSF can help your company improve its PQS and business performance. Call us on **+44 (0) 1751 432 999** or email edge@nsf.org

WHAT PEOPLE ARE SAYING

Our company has been cooperating with NSF International and benefitting from its consultancy for several years on different projects. These included technical as well as pharmaceutical quality management system issues like upgrading of the production facilities, validation studies, stability studies, risk assessment training, and mock inspections.

There are two main things which distinguish NSF pharmaceutical services from those of other consultancies. The first is their excellent reputation. The second is the enthusiasm that our employees, after working with the NSF consultants, show on the projects which is a good indicator for management as to how to evaluate the consulting service.

More than that, in addition to being excellent experts in their own fields and GMP, all of the NSF consultants are amazingly pleasant persons and have an incredible attitude to work.

Pharmaceutical Quality Director, Georgia

WHY DO SUCCESSFUL PHARMA COMPANIES HAVE THE EDGE?

Because they are relentless in seeking the reality of every situation and they never stop asking these questions:

How does my PQS compare to cGMP expectations?

GMP SCORECARD & SELF ASSESSMENT TOOLS

Qualitative and quantitative benchmarking toolkit to identify key gaps in operations and quality systems.

How should I manage a regulatory inspection?

GMP REGULATORY INSPECTION MANAGEMENT

Detailed coaching, tools and practice on how to prepare for, execute and follow up a GMP regulatory inspection.

How can I reduce complexity and set clear, unambiguous standards?

SIMPLIFICATION & HUMAN ERROR PREVENTION PROCESSES

Tools and coaching on how to make systems and procedures more straightforward to follow, less prone to error, faster and easier to manage.

How can I ensure our quality mindset assures company performance for the long term?

QUALITY MINDSET FOR LONG TERM SUCCESS

Tools and coaching on how to change the quality mindset of your team, underpinning any necessary change with the right approach and culture.

How do I install education rather than training?

EDUCATION ROUTE MAPS, NOT TRAINING

Integrating your training into an education program that is inspiring, durable and fit for purpose.

How do I set standards for education and delivery?

STAFF CERTIFICATION PROGRAMS

Setting key roles to an education program that is assessed for effectiveness and proficiency.
