ISO 45001 OCCUPATIONAL HEALTH & SAFETY MANAGEMENT SYSTEM

An occupational health and safety management system (OH&SMS) is concerned with the safety, health and well-being of people in your organization. An OH&SMS provides guidelines for your organization to identify hazards, and ways to manage those OH&SMS risks.

An OH&SMS standard provides your organization with a structured framework, which can help meet your OH&SMS legal and policy requirements, as well as control your OH&SMS risks. The OH&SMS standard may also support your organization to avoid or minimize workplace-related injuries and illnesses. Through continuous improvement of overall OH&SMS performance, you can also provide confidence to your stakeholders that your organization supports the social pillar of sustainability with respect to OH&SMS.

MIGRATION TO ISO 45001

OHSAS 18001 will be withdrawn in March 2021. Current OHSAS 18001 clients will need to migrate to ISO 45001 to ensure continuity of their occupational health and safety management program.

All OHSAS 18001 certificates expire on March 11, 2021. NSF-ISR encourages all existing and new customers to certify to ISO 45001 as soon as possible, but no later than November 10, 2020 to allow time to address any nonconformances.

> " *We've been dealing with NSF for 9 consecutive years now. Auditors have been very informative, very candid and critically constructive feedback from NSF has allowed us to continuously improve and upgrade our standards consistently.* — NSF-ISR CLIENT

POTENTIAL BENEFITS

> Manage health and safety risks more effectively, now and in the future

> Demonstrate your organization's commitment to a safe and healthy work environment

> Minimize risk to employees and other interested parties who may be exposed to OH&SMS risks

> Reduce downtime and associated costs

> Increase access to new customers and business partners

ISO 45001 OCCUPATIONAL HEALTH & SAFETY MANAGEMENT SYSTEM

An OH&SMS management system is designed to be compatible with other management systems standards and specifications such as ISO 9001 (quality) and ISO 14001 (environment). These compatible standards can be integrated seamlessly with NSF-ISR audits, providing additional value.

WHY CHOOSE NSF-ISR?

> Lead auditors with over 10 years' experience, bringing you deep industry knowledge

> Member of national and international committees contributing to standard development

> Consistently high satisfaction levels across clients

> Creative, value-added audit solutions aiming to help your organization meet its certification objectives

> Single point of contact for easy-to-reach communication and scheduling across NSF-ISR standards

> Highly qualified staff to assist with transfer of existing certifications

> Regular OH&SMS-focused webinars and additional resources available on demand

" NSF is professional and very easy to work with. You have our best interest in mind with every audit you do and plan.   — NSF-ISR CLIENT

OTHER SERVICES
