Unless otherwise specified on the applicable Proposal, NSF reserves the right to modify the fees by providing reasonable prior written notice to CLIENT; provided such change will occur no more than once in any 12-month period.
2. Either party may terminate the Agreement for any reason upon 30 days written notice. Termination of this Agreement shall not affect the liability of the parties at the date of such termination and all fees and expenses owed by Client through the date of termination automatically and immediately become due and payable. Payment shall be made for all work performed until the effective date of termination and for any additional costs necessary to terminate Services.
3. NSF warrants and represents that it shall perform the Services in a reasonable and workmanlike manner. Other than the express warranties set forth herein, NSF AND ITS THIRD-PARTY PROVIDERS HEREBY DISCLAIM ALL EXPRESS OR IMPLIED WARRANTIES, CONDITIONS AND OTHER TERMS, WHETHER STATUTORY, ARISING FROM COURSE OF DEALING, OR OTHERWISE, INCLUDING FITNESS FOR A PARTICULAR PURPOSE OR OTHERWISE. 4. NSF has the right, in its sole discretion, to subcontract Services to NSF affiliates and third parties. NSF agrees any such subcontractors shall be bound by obligations of confidentiality as least as strict as contained herein.
5. In the event the Services require a visit by NSF to any non-NSF controlled location (“Site”), Client shall: (a) provide a safe and appropriate working environment for NSF; (b) provide prior written notice to NSF of any potential hazards or risks; and (c) be responsible for the protection of health, safety and wellbeing (including, protection from harassment, discrimination and injury) of NSF representatives while at the Site. Client expressly agrees that it will supply any information, cooperation and access to Sites needed for the Services. NSF’s time of performance will be increased by any delay in NSF’s receipt of the required information, cooperation or access to any required Sites.
6. The Services may include NSF sending, or providing Client with access to, electronic documents and messages (including emails), web portals (such as NSF Connect or Share Point), software, applications and computer systems or networks (collectively the “Systems”) and the Systems may contain Client’s confidential, proprietary or sensitive information. NSF shall use reasonable endeavors to procure that the Systems are safe and secure; however, it does not warrant that Systems will be accurate, up-to-date, compatible, accessible, uninterrupted, complete, error-free or free from viruses or malicious software. Client’s access to and use of the Systems is subject to additional terms and conditions published on the applicable Systems (“Access License”). Use of such System constitutes agreement to the Access License by anyone accessing such System.
7. Where either party (“Discloser”) provides the other (“Recipient”) with Confidential Information, it shall be held in strict confidence and shall not be disclosed or used for any purpose other than as specifically authorized/provided in this Agreement or as required to perform the Services, without the prior written consent of the other party. The parties shall only disclose such Confidential Information to its employees, affiliates, contractors, and agents with a need to know for the Services and who are bound by terms at least as strict as contained herein. The term "Confidential Information" means: (x) NSF Property; (y) any confidential or proprietary information provided by Client to NSF to enable NSF to perform its obligations under the Agreement; and (z) any information that by its nature, Recipient knows or should know is confidential or proprietary, including Discloser business or technical information.

8. Nothing in the Agreement will serve to transfer or assign either party's intellectual property rights which are already in existence as of the date of this Agreement. Client will not remove any copyright, trademark, or other proprietary notices of NSF or any third party on any Deliverables received from NSF and Client will reproduce all such notices on all copies of such Deliverables. NSF owns and retains all right, title and interest to all NSF Property. The term "NSF Property" means NSF's intellectual property, trademarks, tradenames, business process, technologies, algorithms, analyses, data, know-how, methodologies, processes, tools, trade secrets, and services and any and all enhancements or modifications of the foregoing including those developed in connection with the Services. Client may provide suggestions/feedback regarding NSF Property which NSF may use without any obligation to Client.
9. Client acknowledges and agrees that NSF may use all data generated or collected by the Services on a historical, aggregated and/or anonymous basis (collectively, "Aggregate Data") in compliance with applicable laws for any purpose, including but not limited to benchmarking, research, and/or analytical materials. Aggregate Data shall not identify Client as the source of any specific data, pattern or finding, nor shall it include any personally identifiable information of any individual users of the Service. NSF will be the sole and exclusive owner of all right, title and interest to such Aggregate Data.
10. In the course of the provision of the Services, NSF and Client may each obtain access to the personal data of the respective other party. Each of the parties hereby agrees that where NSF's services will require NSF to process personal data, NSF's Data Processing Addendum ("Data Processing Addendum") will be annexed to this Agreement and shall form an integral part of this Agreement. The Data Processing Addendum is available on the NSF Terms and Conditions website. The parties agree and acknowledge that they will comply with applicable data protection laws relating to personal data (including sensitive personal data) and that whenever NSF processes personal data on behalf of Client, such processing shall be carried out subject to and in accordance with the terms of the Data Processing Addendum.
11. Client is solely responsible for, and assumes all risk for, providing all warnings, instructions, and notices of any kind to governmental/regulatory agencies and to the general public. NSF does not assume any responsibility for any conditions that may present a danger, either potential or real, to health, safety, or the environment. NSF does not assume, displace, or undertake to discharge any obligations or responsibilities of Client, any vendor or supplier to Client, any manufacturer, and/or any other party.
12. Client agrees to assume all risks of loss or damage of any kind to products, samples, equipment, or materials placed with NSF under the terms of this Agreement and acknowledges that the foregoing may be destroyed or rendered unusable as part of the Services. Client shall be solely responsible for, and assumes all risk of property damage, personal injury (including death), or other damages of any kind, arising out of or relating to: (a) its products, services or operations, whether or not directly related to NSF's Services; and (b) the failure to comply with, or violation of, all applicable laws, rules, codes, regulations and industry practices relating to Client's products, services, or operations.
13. Client shall indemnify, defend and hold harmless NSF, its affiliates, successors and assigns and its and their respective directors, officers, employees, representatives and agents (hereinafter referred to collectively as the "NSF Indemnified Persons") from, against and with respect to any and all demands, claims, complaints, actions, investigations, arbitrations, assessments, losses, liabilities, costs and expenses (including, but not limited to, interest, penalties and reasonable attorneys' fees and other costs) asserted or alleged against, imposed upon or incurred by such NSF Indemnified Persons, directly or indirectly, resulting from or in connection with (or allegations thereof): (a) its products, services or operations; (b) any matter covered by Section 12 of this Agreement; (c) any unauthorized use, misuse, infringement or misappropriation of NSF Marks or Deliverables; and (d) any infringement or violation of the intellectual property rights of a third party by Client.
14. Neither NSF, Client nor NSF's third party providers shall have any liability with respect to its obligations under this Agreement for consequential, exemplary, special, incidental, or punitive damages even if such party has been advised of the possibility of such damages. NSF's entire liability shall be limited to the amount actually paid to NSF by Client under the Proposal during 12 month period preceding the date of such claim or matter. This limitation applies to all claims in the aggregate, including, without limitation, claims based on breach of contract, breach of warranty, professional negligence, strict liability, misrepresentations, and any other torts or claims.
15. The parties to this Agreement shall be and remain at all times independent contractors and nothing in this Agreement will be construed to create a partnership, joint venture or employment relationship between the parties. Client shall not use NSF's name, logo and/or trademark, service mark, or certification mark ("NSF Marks") without prior written authorization from NSF.
16. Any delay in the performance of either party's obligations hereunder, except for payment obligations, will not be considered a breach of this Agreement if such delay is caused by events, circumstances or causes outside of the party's reasonable control, including but not limited to Acts of God (including but not limited to environmental conditions and extreme weather events), war, terrorism, crime or criminal activity (including but not limited to crime or criminal activity in an affected area that create or make for unsafe conditions), civil unrest, national or local emergency, labor disputes, quarantine or similar health crisis, and government restrictions. Nothing in the

foregoing sentence or otherwise shall prevent or hinder a party exercising its termination rights in this Agreement or as provided by applicable law.

17. This Agreement is for the benefit of the parties hereto and is not entered into for the benefit of any other person or entity. Neither party may assign the rights and obligations under this Agreement to any third party (whether directly or indirectly, by operation of law or otherwise) without the prior written consent of the other party, provided that NSF may assign any or all of its rights or obligations to any affiliate at its sole discretion. This Agreement is binding on the parties, their successors, and permitted assigns.
18. This Agreement shall be interpreted under the laws of Brazil and enforced under the jurisdiction of the Courts of the municipality of São Paulo, SP, Brazil. In the event that any portion of this Agreement is held to be void or unenforceable, the parties agree to negotiate in good faith to reach an equitable Agreement which shall affect the intent of the parties as set forth herein.
19. This Agreement, the Access License, and the Data Protection Addendum (as applicable) constitute the entire agreement between Client and NSF with respect to the subject matter hereof and supersede all previous communications, representations or agreements, whether oral or written, between the parties with respect to said subject matter. No modification will be binding upon either party unless it is made in writing and is signed by duly authorized representatives of both parties. Any written modifications on this document are not acceptable. Any terms and conditions on any purchase order issued by Client, included in Client's vendor set up process, or required to enter any non-NSF location to perform the Services are superseded in their entirety by this Agreement and are without force or effect, even if signed or executed prior to or after the execution of this Agreement. Under no circumstances will NSF's acknowledgement or execution of any such terms be considered an amendment to this Agreement.
20. Client shall inform NSF immediately if Client, any of its affiliate companies or representatives receive a formal notice that either of them is the subject of a formal investigation by a government agency regarding a violation of any anti-corruption law in force.
21. This Agreement may be executed in counterparts, each of which shall be deemed to constitute an original but all of which together shall constitute one and the same instrument. Each party consents to the other party's use of electronic signatures on this Agreement. The terms and conditions of this Agreement will survive the expiration or other termination to the fullest extent necessary for their enforcement and for the realization of the benefit thereof by the party in whose favor they operate. Each party represents that the individual signing this Agreement on its behalf has the authority to do so and to so legally bind the party.
